

2025 Women In Leadership Symposium

Mission Statement

The focus of this annual event is to bring together a diverse mix of local women leaders at all stages of their careers to make meaningful connections and grow professionally. This one-day symposium will include inspiring speakers, an educational workshop, and opportunities to network with other leaders. **Come join us for our 13th annual Symposium to learn, be inspired, and have fun!** Trans and nonbinary identities are always welcome.

Friday

About

Leading Water Forward (previously Women Leading Water) is transitioning as an organization to capture a more intersectional approach to equity and gender diversity in the water industry. We are dedicated to creating meaningful learning opportunities for the people who manage, develop, and protect our water resources.
